Professional Event Videography

Are you getting married?

Is your son's Bar-mitzvah coming up?

Located in the heart of Manhattan, RETROSPECT is a blossoming company run by two native New Yorkers: Ben Pitts and Celina Kelly. We are a young couple who produces event videos with a cinematic flair. Ben recently finished his studies at Columbia College of Chicago and returned to New York to pursue a career in film production. He is the recipient of multiple film awards and has significant training. Celina is a current journalism student of Columbia University and has worked alongside Ben for six months. She will work with you and your family to capture the film that you want to capture. She is also a skilled interviewer and will work as Ben's eyes as he films the event.

Our services range from capturing your special day, Wedding, Bar/Bat-mitzvah, Christening, Birthday, to your corporate parties. We offer the latest audio, video, lighting and communications equipment to help you capture life's special moments. We allow you to relive those precious memories time and time again, providing your family with a one of a kind film that will last a lifetime.
